

- providing high-quality training for volunteers and adults other than teachers to run sports teams, after school clubs and assist in organising large school sports events
- subsidising a local coach to provide weekly after-school sport
- forging links with PE teachers in local secondary schools to help primary staff improve their PE and sports provision
- developing our house system to include inter-house sports competitions for pupils of all ages
- Taxi transport to Intersport events
- Purchasing appropriate sports kit

**In addition, we are planning to use the funding this year to:**

- paying external sports coaches to run competitions and to increase pupils' participation in national school games competitions
- provide places for pupils in after-school sport clubs and holiday courses
- provide training and payment for midday supervisors to introduce more playground games at lunchtimes and breaks
- purchase specialist equipment and teaching resources to develop new sports
- engaging the least active pupils in extra-curricular activities, including active lunch time clubs

**So far, the impact of additional funding on improving the quality and breadth of PE and sport provision has been:**

- Greater participation in planned events outside of school allowing children to develop confidence and awareness of competition
- Increased participation of boys and girls in traditionally gender biased sports (girls in football and boys in netball and dance)
- Improving competition results, particularly in netball and football
- Introduction of new activities including hockey and mixed tag rugby
- The vast majority of PE teaching is now good or better

- Children have taken part in more competitions both within school and with other schools
- There is an increased number of clubs on offer at lunchtime and after school
- Opportunities for developing better life style choices
